

Waniya, the only daughter of Mr. and Mrs. (insert the name of her father) lives in Sultanabad. Pampered and loved by her parents and two elder brothers, Waniya's episodes of fits and severe Asthma distressed her family. After spending 8 days in an ICU and a further two months in a critical condition, the hysterical parents were directed to PWA by the doctor in charge where this young and naïve girl was diagnosed with B-thalassemia. **ISN'T THE SOLE MEANING OF LIFE TO SERVE HUMANITY?**

15 years-old Waniya, is a 9th grade biology student and a makeup enthusiast who dreams of being a doctor. She assists children of her neighbourhood with their academic problems, oblivious to the seriousness of her condition. For a father working in a private factory in Korangi, the annual expenses of Rs. 2,29,000 are not an easy amount to come by.

Fortunately, under the supervision of PWA, Waniya and many other children are being treated free of cost. This bright young girl, happy with the loving and caring staff, insists on wearing her best clothes to her regular visits. Her mother, who is satisfied and content with PWA said,

**“ PWA has given us life. Had it not been for PWA we would have been running around in search of blood bags and medicines. May Allah prosper and flourish them”.**”

**"YES! YOU CAN LIVE A MEANINGFUL LIFE TOO BY LITTLE GESTURES THAT MEAN A LOT TO OTHERS"**

**We have attached the profile of WANIYA for your convenience**

Waniya is one of the many kids who are under the care of PWA. The average expense on **WANIYA's** transfusions and medicines at PWA is around **Rs. 2,29,000/-**. We need YOUR support in this cause. Sponsor as many as you desire.
